

I listen to KLOVE 98.1 in San Diego CA. and I am very concerned about the possibility of LPFM replacing the current FM translator service. This station provides me with information about upcoming events in my area that are of special interest to me that other stations do not cover. The contemporary christian music is encouraging and positive. There is no other station like KLOVE that I have found! Please don't take it away from me and many other who benefit from the music,news,community updates and programming for all ages. Thank you, Pamela Mitchell
